ABOUT ME

A motivated computing undergraduate with a strong passion for Business Analysis. I enjoy understanding how organizations operate, analysing complex business processes, and translating requirements into clear, actionable insights. Through my academic journey, I have developed strong analytical thinking, attention to detail, and effective communication skills, and I am driven to solve real-world business challenges while continuously learning and growing.

PROJECTS

AN AI-BASED CONTENT-DRIVEN MOVIE RECOMMENDATION SYSTEM

An AI-based movie recommendation system developed using content-driven techniques to suggest movies based on user preferences, enhancing the overall entertainment experience.

ENDLESS RUNNER GAME

An endless runner game developed using Unity, featuring increasing difficulty, smooth controls, animations, and score tracking for an engaging gameplay experience.

PRIMEHEAL – HEALTH SUPPORT SYSTEM

A completed web-based health support system offering a reliable and user-friendly healthcare platform. The system streamlines access to healthcare services while ensuring ease of use and accessibility.

WEBSITE FOR CAFE SIENNA

A responsive cafe website developed using HTML, CSS, and JavaScript, focusing on modern UI design, accessibility, and usability across devices.
